

TECHNICAL VISIT TO FILTER MANUFACTURING PLANT

REPORTED BY IR. DEN LOW HAN GUAN

STUDENT ACTIVITIES CHAIR

On 1 Dec 2004, our member, Mr. Abdesselam Hamlaoui, a lecturer from Mechanical Department, University of Malaya, lead a group of 20 students visited American Air Filter Manufacturing Sdn. Bhd. near Shah Alam.

The group was given a briefing on principles of air filtration, type of air filters and its application, filter testing method accordance to ASHRAE Standards as well as other test method such as ambient air leak test and scan test for High Efficiency Particulate Air (HEPA) filters.

The technical visit is part of the programs planned in to promote the roles of ASHRAE via Malaysia Chapter support in order bring a close view in the careers awareness to the undergraduates.

Group photo session with the hosts.
